

## Clarification on rates relief for hospitality businesses

25.3.21

---

### Rates relief Scotland

There is to be 100% business rates relief for hospitality business for this coming year, 2021/22. Don't confuse this with small business rates relief where the discount is stepped and based on your rateable value.

Hospitality businesses are treated differently.

You do still need to go through the application process however.

You can go here <https://findbusinesssupport.gov.scot/service/funding/business-rates-relief>

Here you can click on your local authority and it will take you to their rates page, and find out the process of submitting your application.

### Rates relief England

The 100% relief is to be continued for a further 3 months (April, May & June). For the remaining 9 months, you will only be charged 1/3 of your payable amount. Rates payable will return to the full amount as of April 2022.

You do not have to apply, this will be adjusted by your local authority

### Rates relief Wales

Every hospitality business with a rateable value of under £500,000 will get 100% rates relief for 2021/22

We believe that this relief is applied automatically, but advise you to check this with your local authority <https://gov.wales/find-your-local-authority>
